Learning Style: Virtual Classroom

Technology: Cisco

Difficulty: Advanced

Course Duration: 4 Days

Administering Cisco Contact Center Enterprise (CCEA)

About This Course:

This comprehensive course is designed for professionals seeking mastery in Cisco Contact Center Enterprise (CCE) configuration and scripting. Participants will acquire the skills and knowledge necessary to navigate the diverse set of tools

available for CCE configuration, enabling them to build and manage a robust contact center environment. The course covers essential topics such as Dialed Number, Call Type, and Media Routing Domain configuration, as well as the creation of basic ICM scripts.

Course Objectives:

- Navigate CCE configuration and scripting tools.
- Configure a Dialed Number, Call Type and Media Routing Domain.
- Build a basic ICM script.
- Configure Agents and Skill Groups.
- Configure basic IVR functionality.
- Implement Attributes and Precision Queues.
- Configure RONA using CCE configuration tools.
- Configure and populate an Agent Team and primary Supervisor.
- Improve Agent efficiency through Finesse enhancements.
- Build and test a basic VXML application.
- Implement Roles, Departments and Business Hours.
- Run CUIIC Reports using the Reporting tool.

Audience:

The target audience for this course is channel partners and field support personnel who are responsible for sales, implementation, or administration of a Cisco Unified Contact Center and VRU implementation in customer enterprise networks.

Primary audiences:

- Deployment Engineers
- CCE Administrators

Secondary audiences:

- Technical Sales
- Account and Project Managers

Prerequisites:

The knowledge and skills that a learner should have before attending this course are as follows:

- Basic knowledge of networking (Windows A/D, SQL) and components (servers, routers, switch) is helpful but not required.
- Working knowledge of Unified Communications Manager and voice gateways.
- Basic understanding of Cisco Unified Contact Center Enterprise architecture and operation.

The following Cisco learning offerings may help students meet these prerequisites:

- Cisco CCEF
- Cisco CLFNDU and Cisco CLCOR recommended.

Course Outline:

Section 1 – Cisco Unified Contact Center Review

- Contact Center Basics
- CCE Components and Architecture
- Call Flow
- CCE Access Tools

Section 2 – Deploying Basic Call Settings

- Media Routing Domains
- Call Types
- Dialed Numbers

Section 3 – Building a Basic Cisco Unified Contact Center Enterprise Script

- Introduction to Script Editor
- Use Script Editor Nodes
- Understand Variables
- Schedule Scripts
- Manage Additional ICM Scripting Tools

Section 4 – Configure Basic Agent Functionality

- Introduce Agent Functionality
- Configure Agent Desk Settings
- Configure Skill Groups and Skill Targets
- Configure an Agent
- Configure Agent Targeting Rules
- Build an Agent Routing ICM Script
- Prepare Agent Logon

Section 5 – Configuring Basic Call Treatment and Queuing

- Media Server and Files
- ECC Variables
- Microapps
- Play Media Microapp
- Get Digits Microapp
- Menu Microapp
- Play Data Microapp
- Get Speech Microapp
- Capture Microapp
- Scripting with Microapps

Section 6 – Implementing Precision Routing

- Exploring the Basics
- Migration Path
- Skill Groups vs. Precision Queues
- Configuring Attributes and Precision Queues
- Precision Routing Sample Scenario

Section 7 – Configuring RONA Support

- RONA Function Overview
- RONA Time-out Considerations
- RONA Script Logic

Section 8 – Configuring Agent Teams and Supervisors

- Agent Roles
- Supervisor
- Team Function

Section 9 – Administering the Cisco Finesse Desktop

- Finesse Server Integration
- Custom Call Variable Layouts
- Phone Books
- Reason Codes
- Workflows

Section 10 – Implementing VXML Applications

- VXML Overview
- CCE VXML Architecture and Logic Flow
- Build Basic Call Studio Project
- Deploy Project, Verify Config
- CCE Scripting for External VXML Applications

Section 11 – Configuring Roles, Departments and Business Hours

- Introducing Roles
- Configuring CCE Administrators
- Configuring Departments
- Defining Business Hours

Section 12 – Running Unified CC Enterprise Reports with Unified IC

- Introduce and Navigate CUIC
- Reporting Touch Points
- Access CUIC Stock Reports
- Create Custom Dashboards

Lab Outline:

Labs are designed to assure learners a whole practical experience, through the following practical activities:

- Navigating CCE Discovery Architecture and Components
- Exploring ICM Configuration Tools
- Administering ICM Dialed Numbers and Call Types
- Prepare a Basic Label Script
- Use ICM Tools for ICM Scripts
- Configure ICM for Basic Agent and Skill Group Functionality
- Configure CUCM for Agent Functionality
- Testing Basic Skill Group Functionality in an ICM Script
- Media Files and Variables in ICM Scripting
- Basic IVR Scripting with MicroApps
- Configure and Implement Precision Routing
- Configuring RONA
- Configure Agent Teams and Supervisors
- Finesse Administration
- VXML Server Configuration and Call Studio Installation
- Create and Deploy a Cisco Unified Call Studio Project
- Integrate VXML Applications with a CCE Script
- Configuring Roles, Departments and Business Hours
- Reporting

Credly Badge:

Display your Completion Badge And Get The Recognition You Deserve.

Add a completion and readiness badge to your LinkedIn profile, Facebook page, or Twitter account to validate your professional and technical expertise. With badges issued and validated by Credly, you can:

- Let anyone verify your completion and achievement by clicking on the badge
- Display your hard work and validate your expertise
- Display each badge's details about specific skills you developed.

Badges are issued by QuickStart and verified through Credly.
