Microsoft® Word for Office 365™: Part 2

About This Course:

Creating professional-looking documents can help you give your organization a competitive edge. Implementing time-saving features such as document templates and automated mailings helps your organization reduce expenses. Mastering these

techniques will make you a valued employee in your organization.

Course Objectives:

- Organize content using tables and charts.
- Customize formats using styles and themes.
- Insert content using Quick Parts.
- Use templates to automate document formatting.
- Control the flow of a document.
- Simplify and manage long documents.
- Use mail merge to create letters, envelopes, and labels.

Audience:

- This course is designed for students who wish to use Microsoft Word to create and modify complex documents and use tools that allow them to customize those documents.

Prerequisites:

- To ensure your success, you should have end-user skills with any current version of Windows®, including being able to start programs, switch between programs, locate saved files, close programs, and access websites using a web browser. In addition, you should be able to navigate and perform common tasks in Word, such as opening, viewing, editing, and saving documents; formatting text and paragraphs; formatting the overall appearance of a page; and creating lists and tables
